Jim - Yes, let's keep the meeting. The agenda items you propose are fine, although I don't know any more than you do about the dispute so we probably don't need to discuss that. I'd also like to add the following:

- \*status of the sediment core profiles for PAHs and DDx
- \*status of LWG review of dioxin/furan information – set date for meeting?

Thanks,

Good morning Kristine. We have a Project Managers meeting set-up for next Tuesday, January 27. If you are on-board with keeping this meeting then I recommend the following agenda items:

- EPA staffing (new RPMs)
- Status of RI (Section 7 dispute, Section 10 final changes, and Exec Summary).
- Status of FS (upcoming tech meetings and status of Section 2).
- Project Schedule

Please let me and Jen know if you want to keep this meeting, and if so let us know: a) if it should be the full-list of attendees or just me, you, Bob, Sean, and any other EPA RMP, and b) if you have any additional agenda items.

Thanks, Jim.
